

How to Fold an Origami Barn

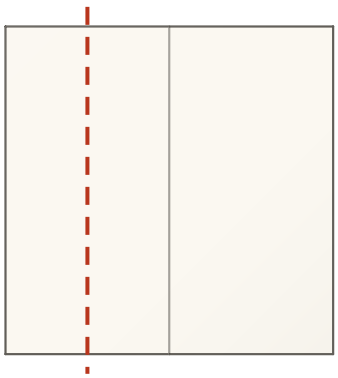

Easy level, 10 steps. From Paper and Scissors in the Schoolroom (Weaver), 1893. Public domain.

Every fold is animated at orikatado.com/barn

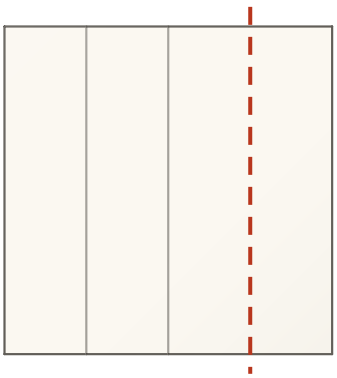

Valley fold: toward you Mountain fold: away from you

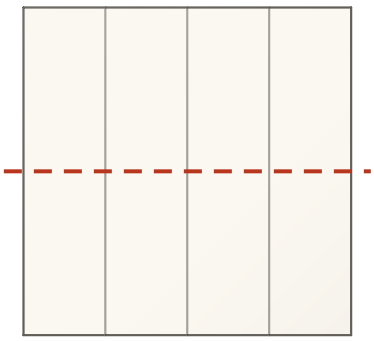

1 Start white side up. Fold in half from left to right, then unfold.

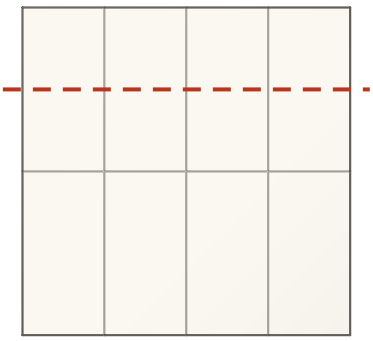

2 Fold the left edge to the center crease, then unfold.

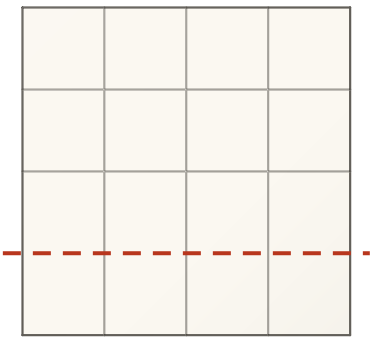

3 Fold the right edge to the center crease, then unfold.

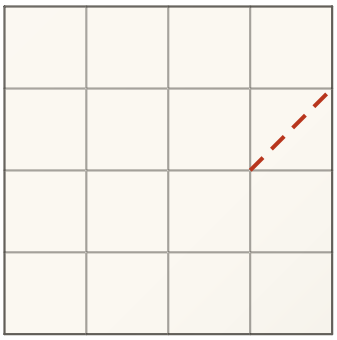

4 Fold in half from top to bottom, then unfold.

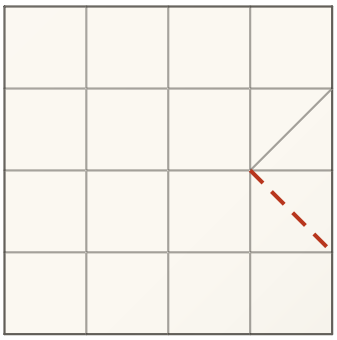

5 Fold the top edge to the center crease, then unfold.

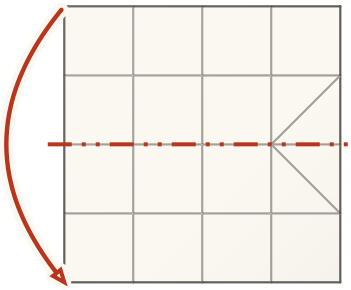

6 Fold the bottom edge to the center crease, then unfold. The creases make sixteen squares.

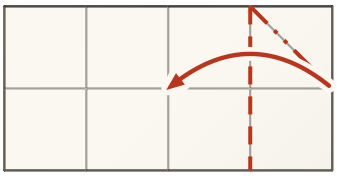

7 Crease the diagonal of the square to the right of the center, between the middle crease and the top quarter crease.

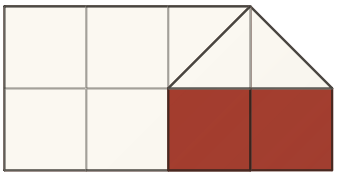

8 Crease the diagonal of the square below it, the other way.

9 Fold the top half behind.

10 Fold the lower right square over to the left. The square above it opens and flattens into a roof.

Done The barn (Weaver, Paper and Scissors in the Schoolroom, 1893).
