

How to Fold an Origami Fish Base

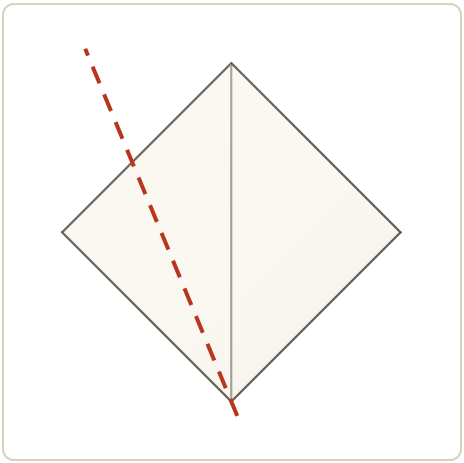

Medium level, 7 steps. Traditional base. Earliest record: Origami (Honda), 1931.

Every fold is animated at orikatado.com/fish-base

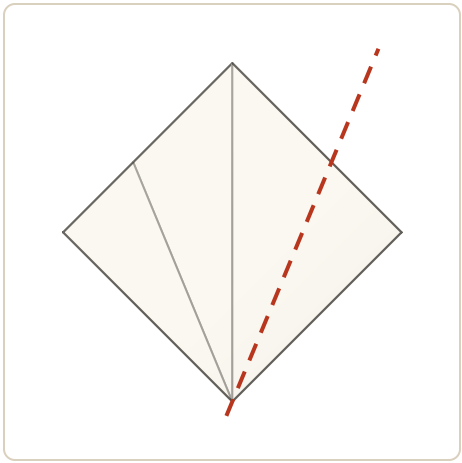

Valley fold: toward you Mountain fold: away from you

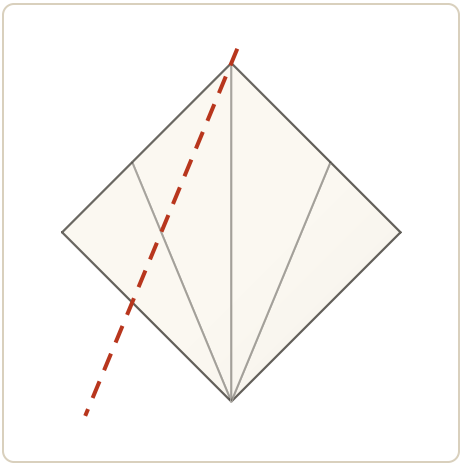

1 Start white side up. Fold in half from corner to corner, then unfold.

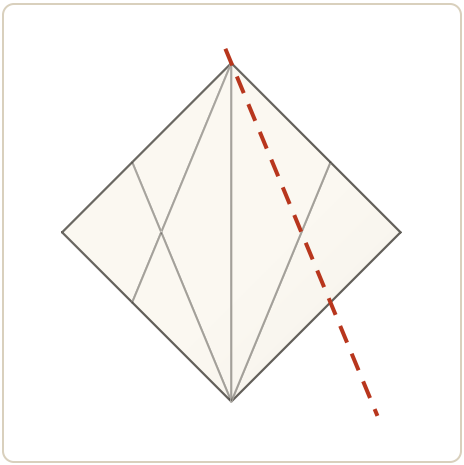

2 Fold the lower left edge to the center line, then unfold.

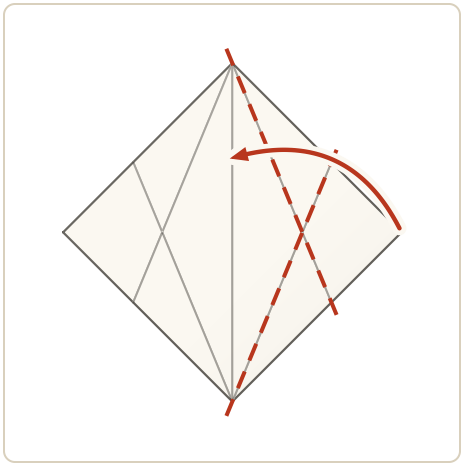

3 Fold the lower right edge to the center line, then unfold.

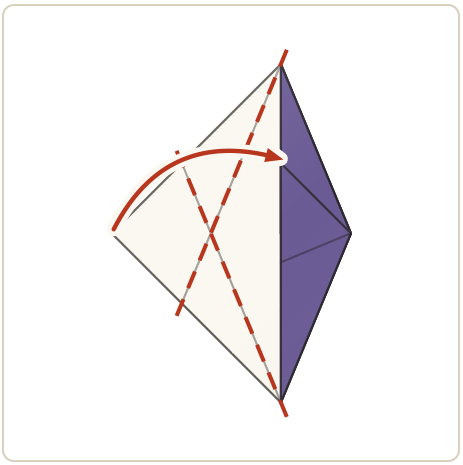

4 Fold the upper left edge to the center line, then unfold.

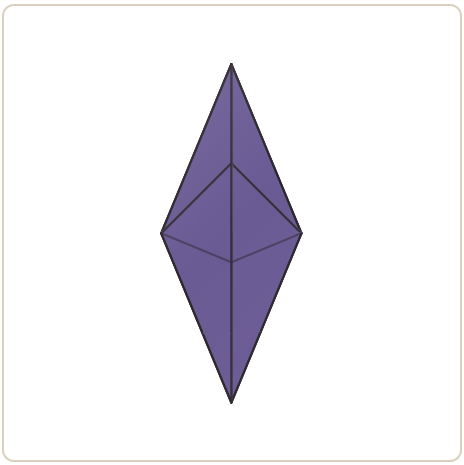

5 Fold the upper right edge to the center line, then unfold.

6 Fold both right edges to the center line at once. The right corner stands up. Flatten it upward.

7 Do the same on the left side.

Done This is the fish base.
