

How to Fold an Origami Fox Face

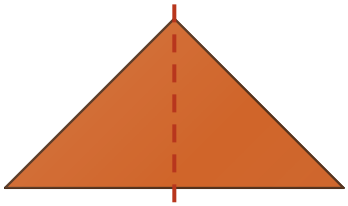

Easy level, 6 steps. Traditional. Earliest record: Yochien Onbutsu Zukei, 1878.

Every fold is animated at orikatado.com/fox-face

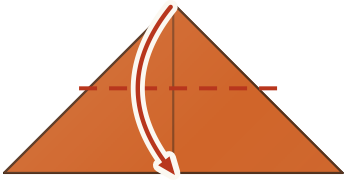

Valley fold: toward you Mountain fold: away from you

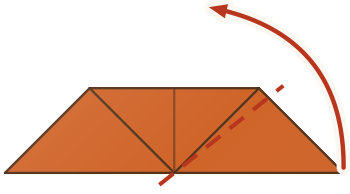

1 Start white side up. Fold the bottom corner up to the top corner.

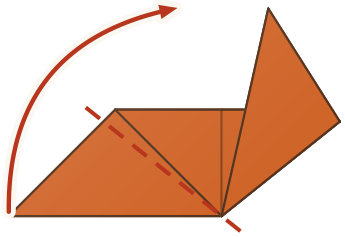

2 Fold in half from right to left, then unfold.

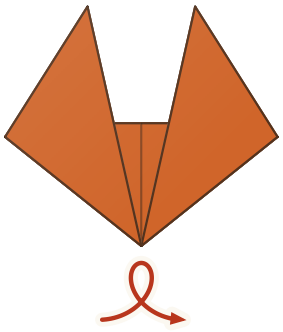

3 Fold the top point down to the middle of the bottom edge.

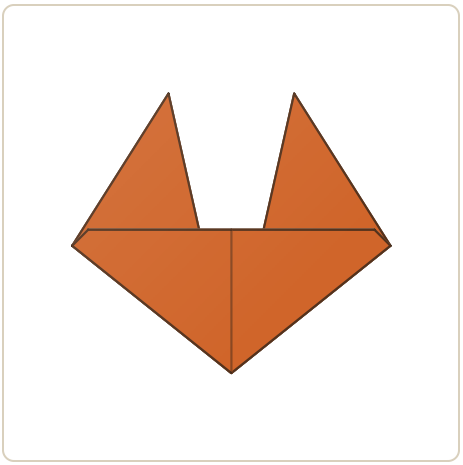

4 Fold the right corner up, stopping a little short of the center line.

5 Fold the left corner up the same way, so the two tips stand apart.

6 Turn the paper over. The two top points are the ears.

Done Draw the eyes and the nose at the bottom point.
