

How to Fold an Origami Screen

Easy level, 2 steps. From Paper and Scissors in the Schoolroom (Weaver), 1893. Public domain.

Every fold is animated at orikatado.com/screen

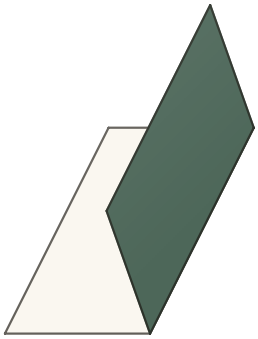

Valley fold: toward you Mountain fold: away from you

1 Start white side up. Fold the right edge over to the left edge, corners touching, and crease.

2 Open the fold halfway and stand the paper on its edges.

Done The screen (Weaver, Paper and Scissors in the Schoolroom, 1893).
