1 Start white side up. Fold in half from top to bottom, then unfold.

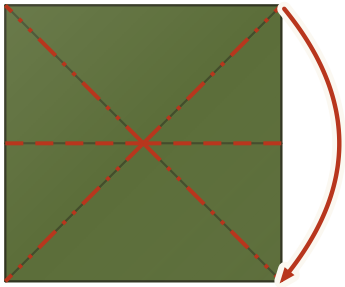

2 Turn the paper over.

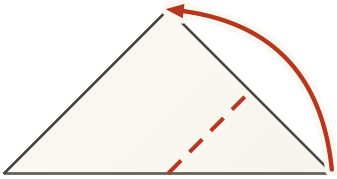

3 Fold in half corner to corner, then unfold.

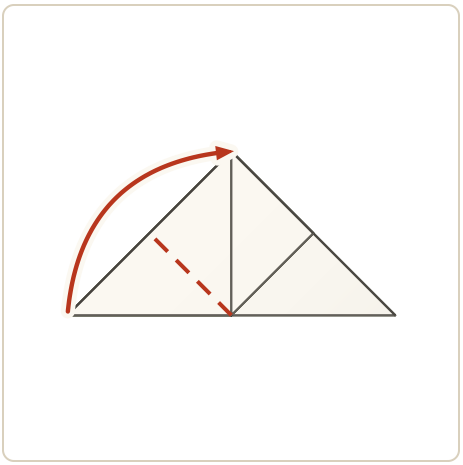

4 Fold in half along the other diagonal, then unfold.

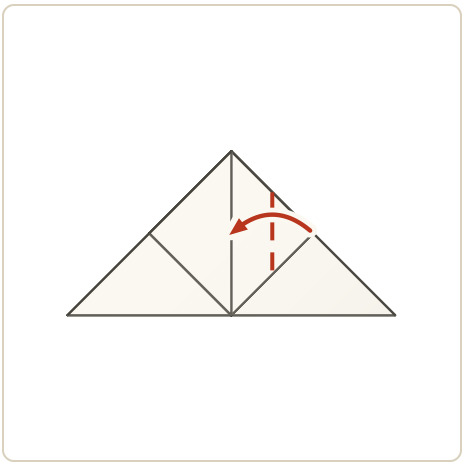

5 Push the two side edges in along the middle crease and flatten the paper into a triangle.

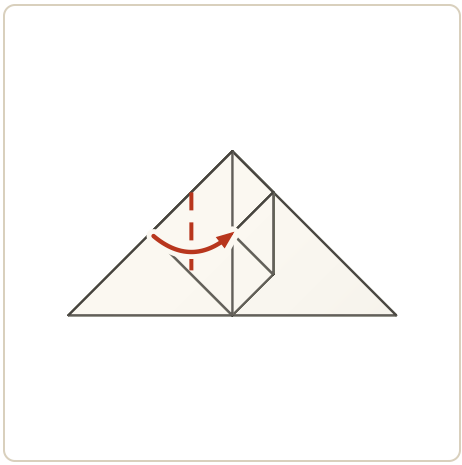

6 Fold the right corner of the front layer up to the top point.

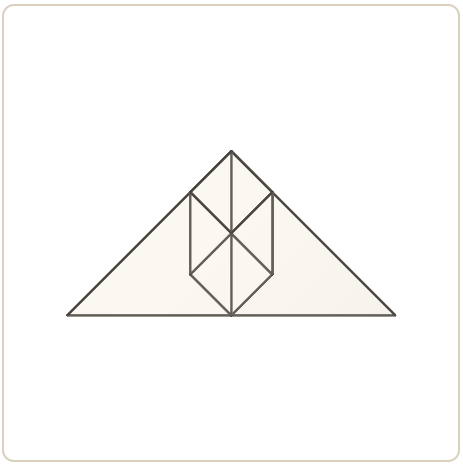

7 Fold the left corner up the same way. The front is now a square standing on a point.

8 Fold the right corner of the square in to its center.

9 Fold the left corner in to the center the same way.
