

How to Fold an Origami Sugar Bowl

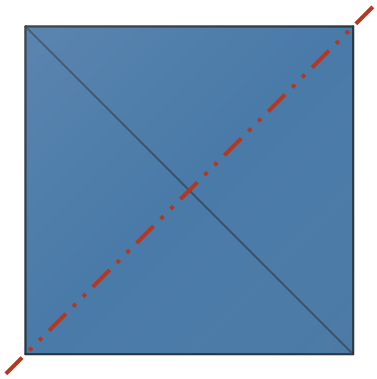

Hard level, 38 steps. From Fun with Paper Folding (Murray and Rigney), 1928. Public domain.

Every fold is animated at orikatado.com/sugar-bowl

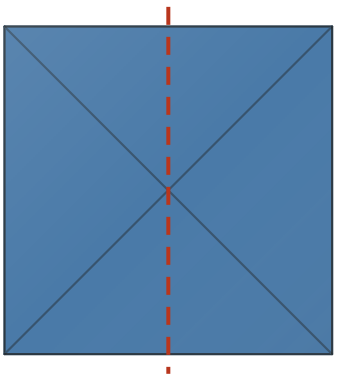

Valley fold: toward you Mountain fold: away from you

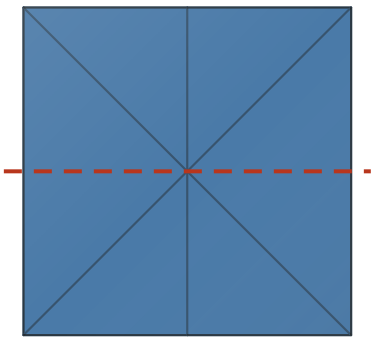

1 Start colored side up. Fold in half corner to corner behind, then unfold.

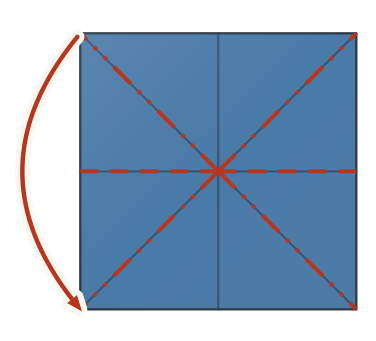

2 Fold in half along the other diagonal behind, then unfold.

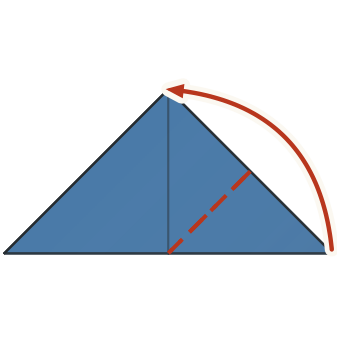

3 Fold in half from left to right, then unfold.

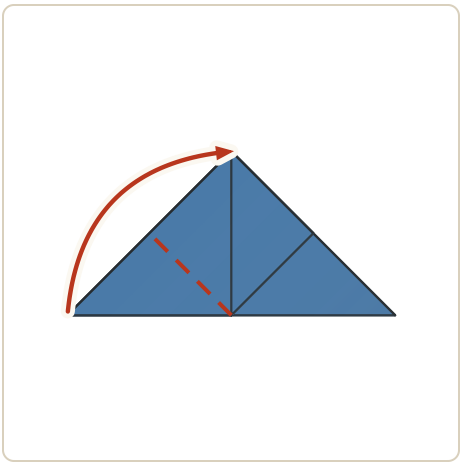

4 Fold in half from top to bottom, then unfold.

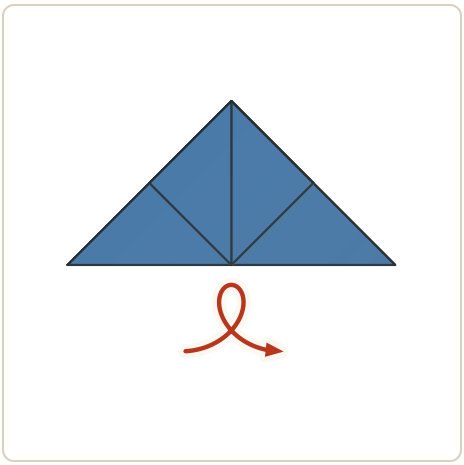

5 Push the left and right sides in along the middle crease and flatten the paper into a triangle.

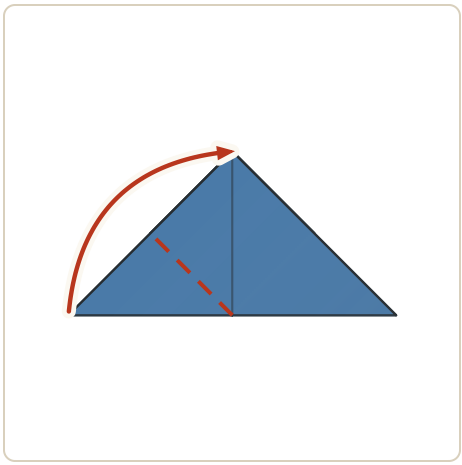

6 Fold the right corner of the front layer up to the top point.

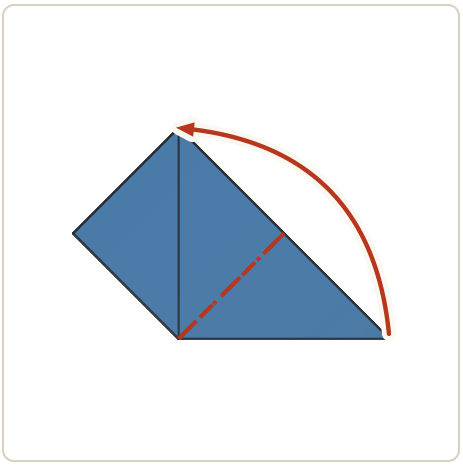

7 Fold the left corner up to the top point.

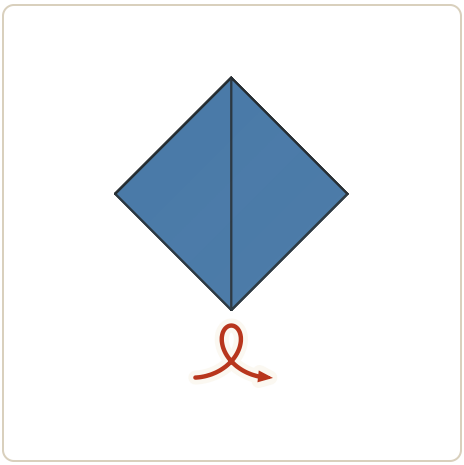

8 Turn the paper over.

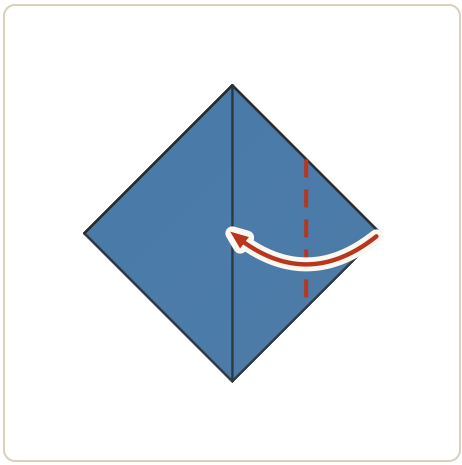

9 Fold the two corners of this side up to the top point too.

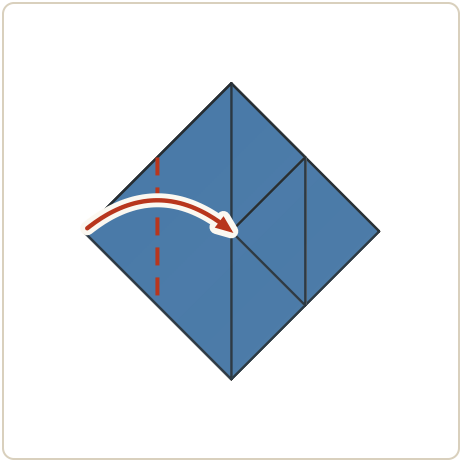

10 And the other corner.

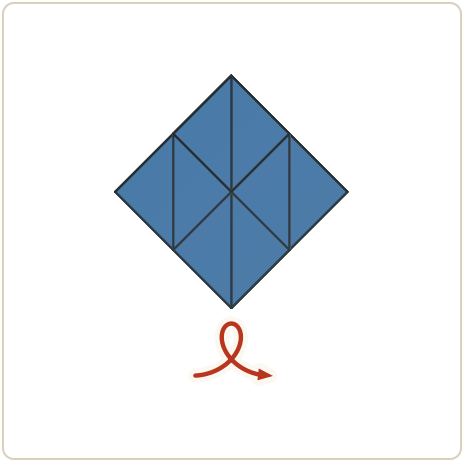

11 Turn the paper over.

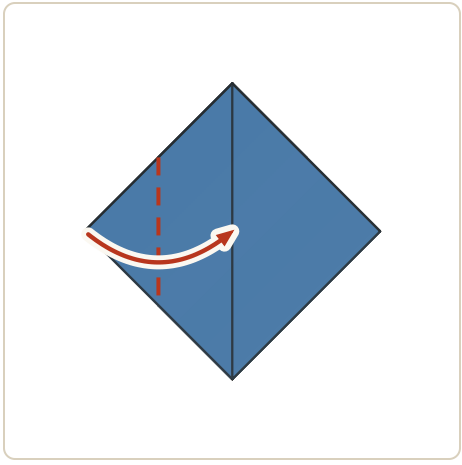

12 Fold the right corner of the diamond in to the center line, through the layers of that side.

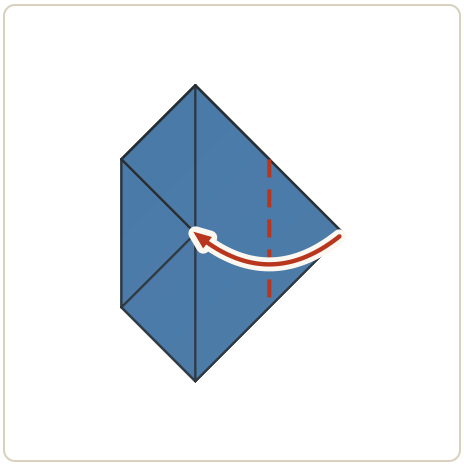

13 Fold the left corner in the same way.

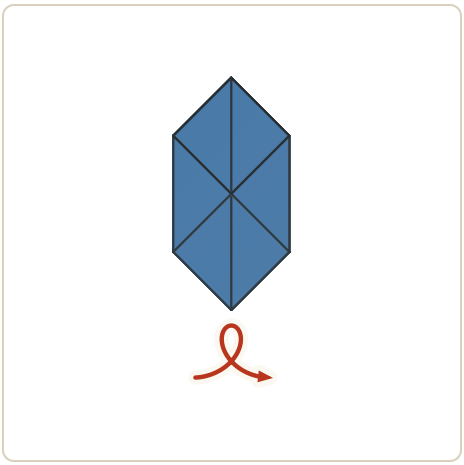

14 Turn the paper over.

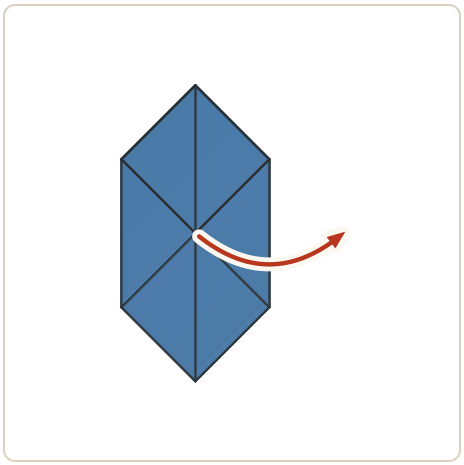

15 Fold both corners of this side in the same way.

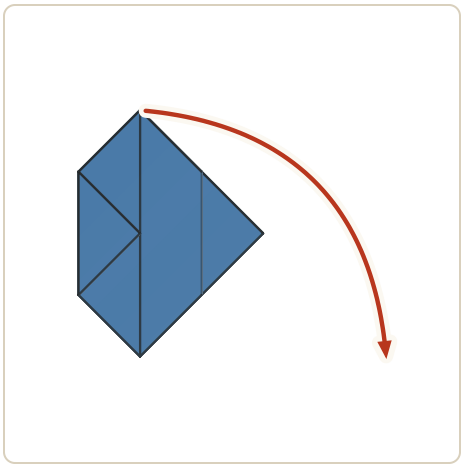

16 And the other corner.

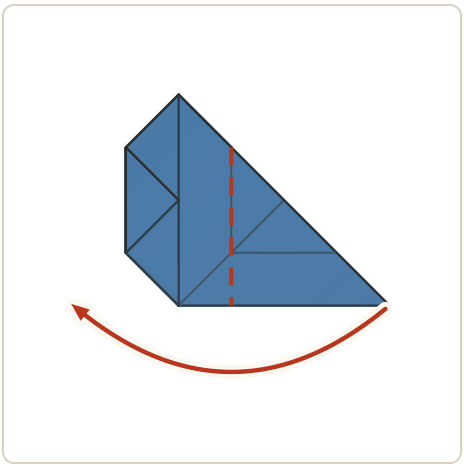

17 Turn the paper over.

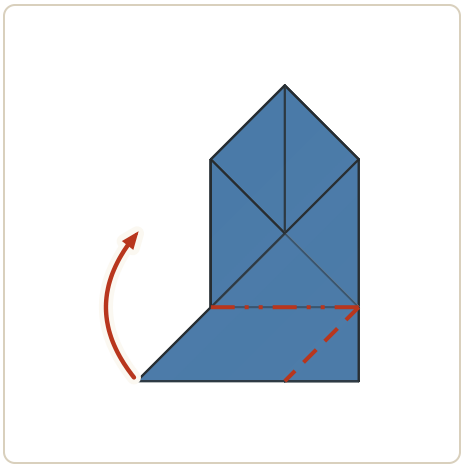

18 Unfold the side corner again.

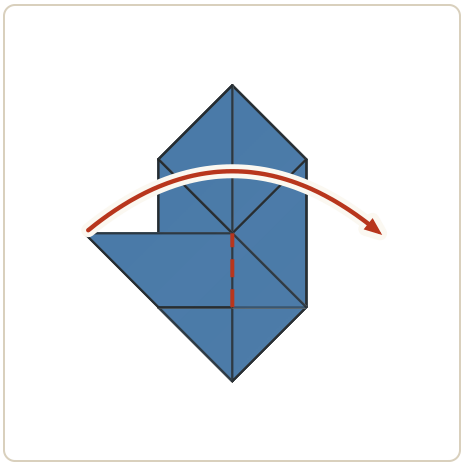

19 Unfold the corner below it back down.

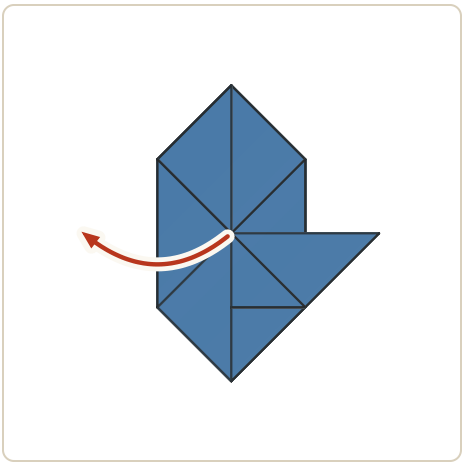

20 Fold the two layers of that corner over toward the center along the crease.

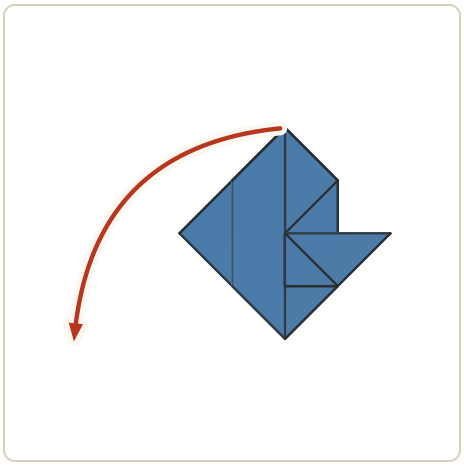

21 Push the bottom point of the folded layers up inside, so a small triangle forms.

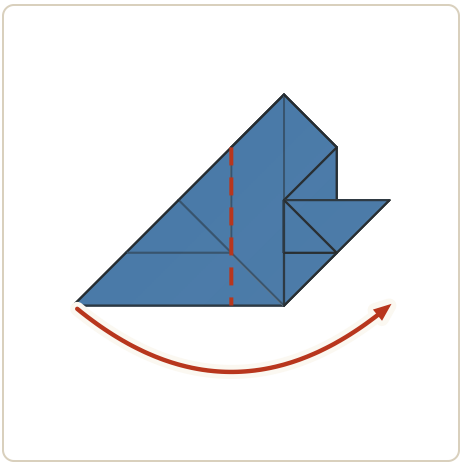

22 Fold the corner back out over the small triangle. This is a handle.

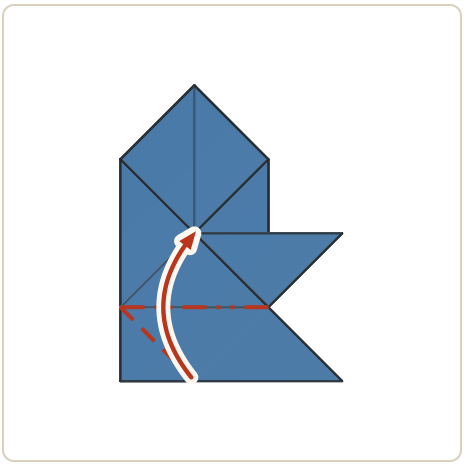

23 Unfold the next side corner.

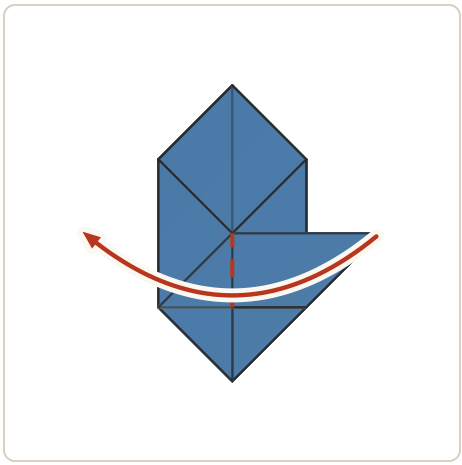

24 Unfold the corner below it.

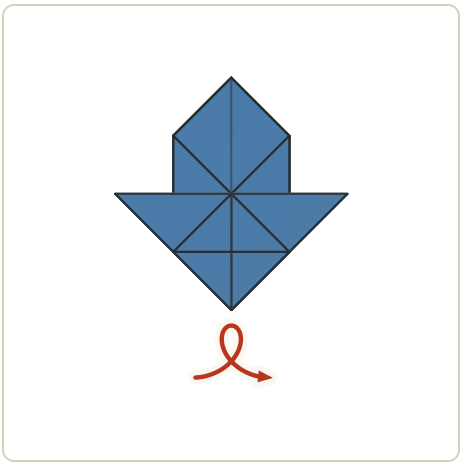

25 Fold the corner over toward the center.

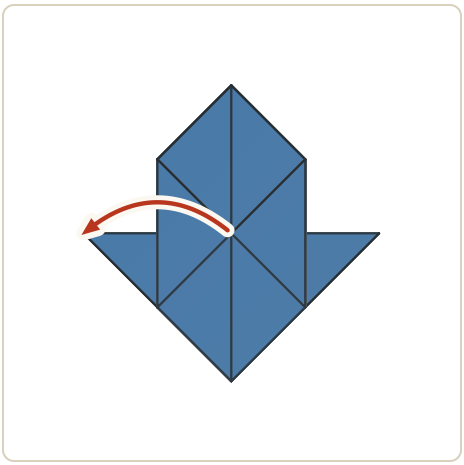

26 Push its bottom point up inside the same way.

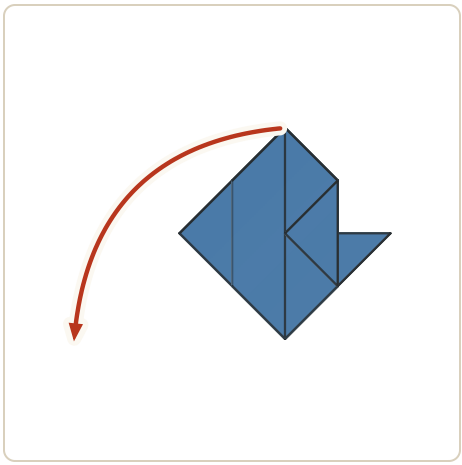

27 Fold the corner back out to make the next handle.

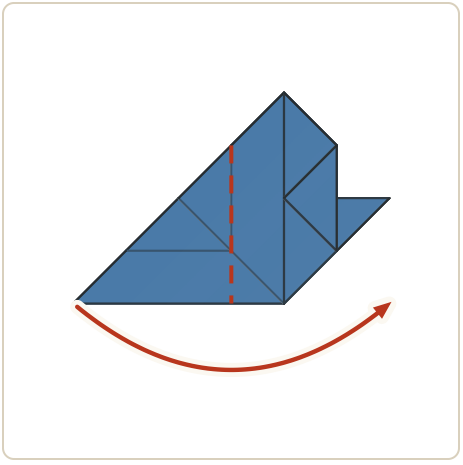

28 Turn the paper over.

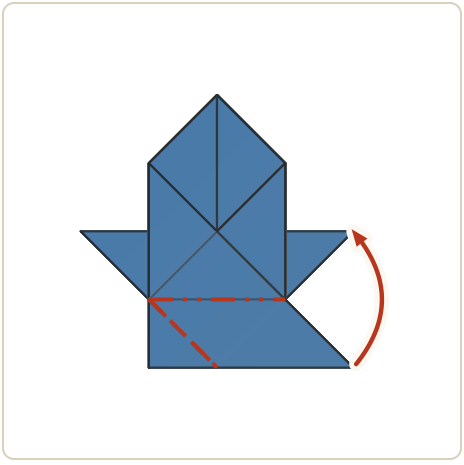

29 Unfold the next side corner.

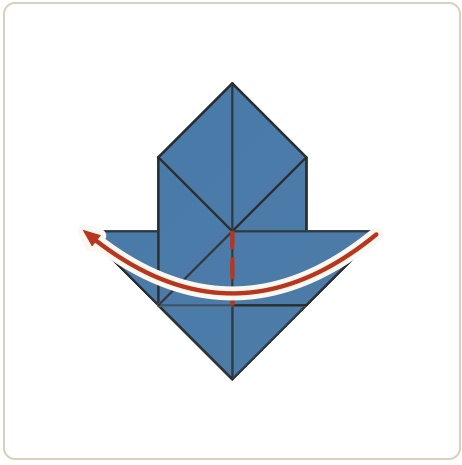

30 Unfold the corner below it.

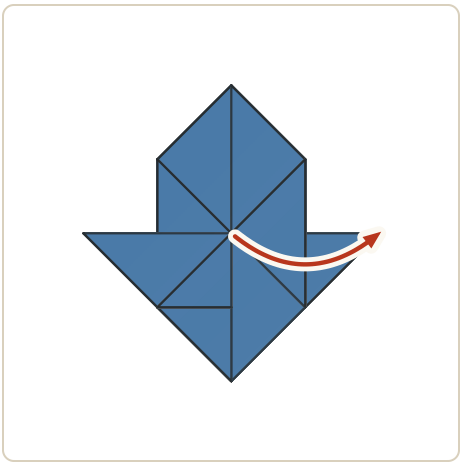

31 Fold the corner over toward the center.

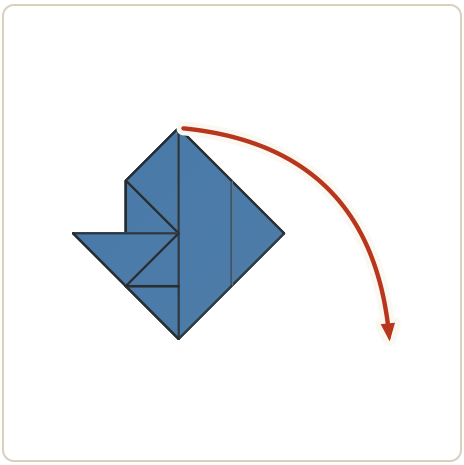

32 Push its bottom point up inside the same way.

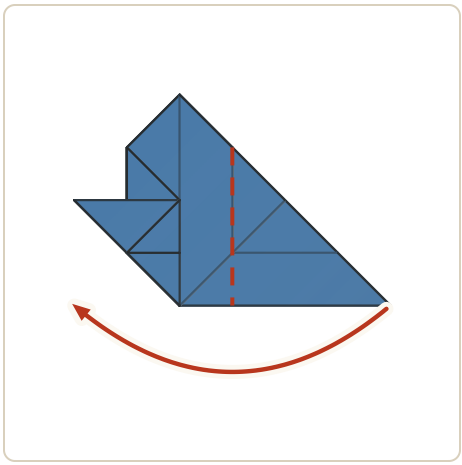

33 Fold the corner back out to make the next handle.

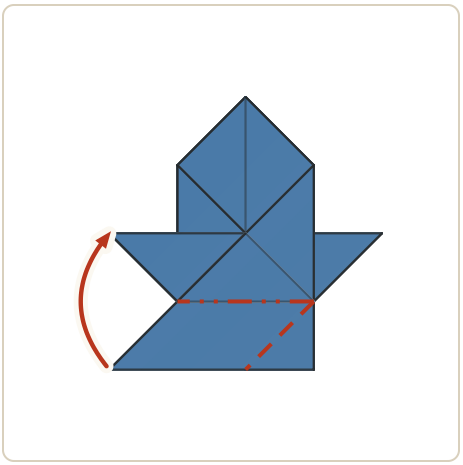

34 Unfold the next side corner.

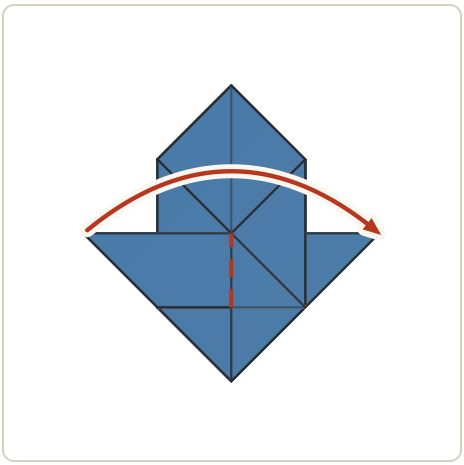

35 Unfold the corner below it.

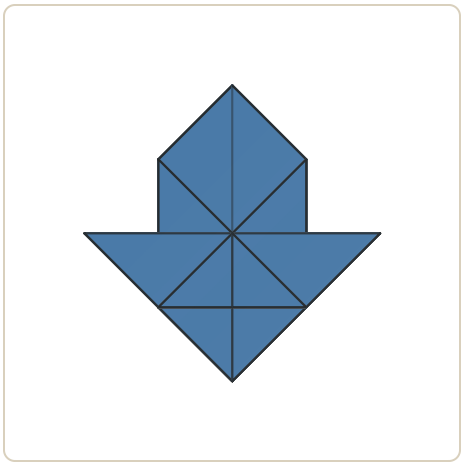

36 Fold the corner over toward the center.

37 Push its bottom point up inside the same way.

38 Fold the corner back out to make the next handle.

Done Hold two handles and blow into the hole at the bottom, then stand it upside down. This is the sugar bowl (Murray and Rigney, Fun with Paper Folding, 1928).
